Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Part III DETAILED ACTION

Notice to Applicant(s)

1. This application has been examined. Claims 1-29 are pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1, 3, 4, 5, 6, 7, 8, 9, 10, 14, 15, 16, 17, 20, and 21 are rejected under 35 U.S.C. 102(e) as being anticipated by Yacoub (U.S. 6,552,813).

With respect to claims 1, 10, 17, 20, and 21, Yacoub discloses a method comprising receiving a print job having an associated print destination (column 4, lines 5-16); determining a first location associated with a source of the print job (column 2, lines 8-15); determining a second location associated with the print destination (column 4, lines 28-52); determining a

printing policy associated with the print job (speed, quality or color) (column 4, lines 5-52); and communicating the print job to the print destination if the print job satisfies the printing policy (the abstract and column 4, lines 5-52).

With regard to claims 3 and 7, Yacoub discloses the printing policy includes determining whether the first location is the same as the second location (the abstract, lines 1-7).

With respect to claims 4 and 14, Yacoub discloses the printing policy includes determining whether the first and second locations are located in a common facility and whether the second location is in a controlled area (which reads on an office suite where the user works) of the common facility (the abstract, lines 1-7 and column 5, lines 35-44).

With regard to claims 5, 6, 15, 16, and 19, Yacoub discloses determining a first location and second location includes identifying a communication port associated with the source and destination of the print job (column 6, lines 46-67 and column 8, lines 29-45).

With respect to claim 8, Yacoub discloses the job is received by a print server (column 6, lines 46-60).

With regard to claim 9, Yacoub discloses the destination is a printer (column 6, lines 46-67).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2626

5. Claims 2, 11, 12, and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yacoub in view of Nickerson (U.S. 6,078,406).

With respect to claims 2, 11, 12, and 18, Yacoub differs from claims 2, 11, 12, and 18 in that he does not clearly disclose deleting the print job if the print job does not satisfy the printing policy. Nickerson discloses deleting a print job if the print job does not satisfy a printing policy (column 13, lines 32-46). It would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Yacoub wherein the print job is deleted if a print parameter is not satisfied. It would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Yacoub by the teaching of Nickerson in order to conserve on printer memory.

6. Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yacoub. With respect to claim 13, Yacoub differs from claim 13 in that he does not clearly disclose that the common facility is a hotel. However, it would be a matter of design choice for one of ordinary skill in the art to determine or set where the source and destination of the print job would be. This would result in ease of use for the user of the system.
